GenScript Make Research Easy

Rev04 Update: Oct,19,2022 DATASHEET

Anti-Adalimumab Antibody, pAb, Rabbit

Cat. No.: A01886

Overview

Specificity	The product is specific for Adalimumab. This antibody serves as an excellent positive control for Adalimumab The product is specific for Adalimumab. This antibody serves as an excellent positive control for Adalimumab immunogenicity (ADA) assays.
Host Species	Rabbit
Immunogen	Adalimumab
Conjugate	Unconjugated

Applications

Working concentrations for specific applications should be determined by the investigators. The appropriate concentration may be affected by secondary antibody affinity, antigen concentration, the sensitivity of the method of detection, temperature, the length of the incubations, and other factors. The suitability of this antibody for applications other than those listed below has not been determined. The following concentration ranges are recommended starting points for this product.

Application	Recommended Usage
ELISA	0.05-0.2 μg/ml

Properties

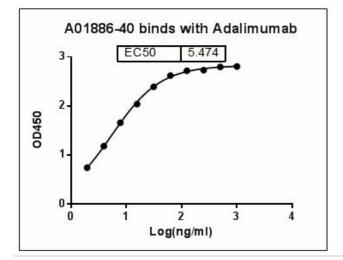

Form	Lyophilized
Storage Buffer	lyophilized with PBS, pH 7.4, containing 0.02% sodium azide.
Reconstitution	Reconstitute the lyophilized powder with deionized water (or equivalent) to an final concentration of 0.5 mg/mL.
Storage Instructions	The lyophilized product remains stable up to 1 year at -20 °C from date of receipt. Upon reconstitution, it can be stored for 2-3 weeks at 2-8 °C or for up to 12 months at -20 °C or below. Avoid repeated freezing and thawing cycles.
Purification	Antigen affinity purification
lsotype	Rabbit IgG

GenScript USA, Inc.

Clonality	Polyclonal
Clone ID	Not applicable
Note	GenScript can customize this product per customer's request including product size, buffer components, etc.

Examples

Anti-Adalimumab Antibody, pAb, Rabbit (GenScript, A01886-40) binds with Adalimumab. Dilution: Start from 1,000 ng/ml, EC50= 5.474 ng/ml. Coating antigen: Adalimumab, 1 μg/ml.

Background

Target Background : Adalimumab (Humira) is a humanized monoclonal antibody that is approved by the U.S. Food and Drug Administration for the treatment of patients with rheumatoid arthritis, psoriatic arthritis, ankylosing spondylitis, Crohn's disease, ulcerative colitis, chronic psoriasis, hidradenitis suppurativa, and juvenile idiopathic arthritis. Adalimumab binds to the TNFα (tumor necrosis factor-alpha), and blocks its interaction with TNFα receptors, reducing the inflammatory response of autoimmune diseases.GenScript Anti-Adalimumab Antibody, pAb, Rabbit is produced from sera of a rabbit immunized with Adalimumab.

Synonyms : Rabbit polyclonal to Humira, Exemptia

For laboratory research use only. Direct human use, including taking orally and injection and clinical use are forbidden.
