Section 4: First-Aid Measures Description

Inhalation:	Follow standard care for a respiratory emergency as necessary. Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention immediately.
Skin:	Follow standard care for skin contact as needed. Immediately wash thoroughly with soap and water. Remove contaminated clothing and shoes. Get medical attention if symptoms develop. Wash clothing and shoes before reuse, or discard in a manner which limits further exposure.
Eye:	In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention immediately if irritation persists.

Ingestion: If swallowed, get medical attention immediately. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person.

Section 5: Fire-Fighting Measures

- Extinguishing Media:** Dry chemical, fire-fighting foam, water spray, or carbon dioxide.
- Special Exposure Hazards:** This product is water-based and is expected to present a negligible fire hazard. However, under fire conditions the residual organic components can burn generating toxic and irritating gases and/or smoke. Evacuate area and fight fire from safe distance.
- Special Protective Equipment:** Wear approved pressure-demand self-contained breathing apparatus and full protective gear.

Section 6 - Accidental Release Measures

- Personal Precautions:** Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
- Emergency Procedures:** As an immediate precautionary measure, isolate spill or leak area for at least 50 meters (150 feet) in all directions. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area) Keep out of low areas. Keep unauthorized personnel away.
- Methods for cleaning up:** Sweep up, place in a bag and hold for waste disposal. Avoid raising dust. Ventilate area and wash spill site after material pickup is complete.
- Environmental precautions:** No special environmental precautions required

Section 7 - Handling and Storage

Handling: Use with adequate ventilation as desired. Wash thoroughly after handling. Remove contaminated clothing and wash before reuse. Follow all MSDS/label precautions. Avoid contact with skin and eyes.

Storage: Store at 2-8°C. Do not freeze.

Specific Uses: For R&D experimental use only;

Section 8 - Exposure Controls/Personal Protection

Exposure Limit Values: None established

Exposure Controls: Use process enclosures, local exhaust ventilation, or other engineering controls as needed.

Respiratory Protection: Not expected to be required. However, if used, consult with respirator manufacturer to determine respirator selection, use, and limitations.

Eye/Face Protection: Use safety glasses. Where contact with the eyes is likely, use chemical goggles.

Skin/Hand Protection: Use chemical gloves as needed. Use of a lab coat or equivalent is recommended to minimize contact with clothing and skin as a good hygiene practice.
