DATASHEET

ProGRP Antibody (11B5), mAb, Mouse

Cat. No.: V09802

Overview

Specificity	Human ProGRP
Clone ID	11B5
Isotype	Mouse IgG1 for Mabs 11B5

Properties

Production	Cultured in vitro under conditions free from animal-derived components
Concentration	≥ 2mg/ml
Formulation	50 mM Na-citrate, 150 mM NaCl, pH 7.0, containing 0.03% ProClin 300.
Storage	For long term storage, aliquot and store at -25°C~-15°C or below. Avoid repeated freezing and thawing cycles.
Note	GenScript can customize this product per customer's request including product size, buffer components, etc.

Applications

Platform	Capture	Detection
CLIA	1C10	11B5
ELISA	1C10	11B5
	11B5	1C10

Background

Target Background : Progastrin-releasing peptide (ProGRP) is a stable precursor of the gastrin releasing peptid. It is composed of GRP (residues 1–27), a cleavage site (residues 28–30), and a constant region (residues 31–98). ProGRP is a tumor marker for the diagnosis and monitoring of small cell lung cancer (SCLC).

Limited Use License and Use Restrictions

Limited Use License and Use Restrictions

This Product is provided under a limited, non-exclusive, non-transferable, and non-sublicensable end-user license strictly limited to the permitted uses set forth in GenScript's official documentation, quotations, or written agreements. Any use beyond such scope requires GenScript's prior written authorization or license.

Except as expressly authorized in writing by GenScript, Customer shall not, and shall not permit, procure, enable, or assist any third party to: (a) commercialize or otherwise exploit the Product, including by reselling, distributing, transferring, sublicensing, or otherwise making the Product (including any product incorporating the Product) available to any third party; (b) copy, reproduce, clone, reverse clone, sequence, analyze, characterize, deconstruct, reconstruct, reverse engineer, or otherwise attempt to discover the composition, sequence, structure, binding characteristics, epitope recognition characteristics, or other proprietary features of the Product; (c) modify, derivatize, humanize, optimize, mutate, design around, or generate any variants, derivatives, fragments, substitutes, or functional equivalents of the Product; or (d) use the Product, any information derived therefrom, or any computational, AI-enabled, or sequence-based design method to develop, manufacture, offer for sale, sell, or commercialize any product or service competitive with the Product or GenScript's products or services.

All intellectual property rights and all rights not expressly granted herein are reserved by GenScript. No rights are granted by implication, estoppel, or otherwise.

For laboratory research use only. Direct human use, including taking orally and injection and clinical use are forbidden.
